

HOW TO PRINT?

All Students must format their Smart ID Cards at Yapı Kredi Bank. After that, they can load print credits from computers at SOS Print Desk or near PTT Office in student center. With this account, they can send print-outs to any printer on campus.

To check your print credit status, EGuide service from web can be used.

E-Guide can be accessed from University's homepage by clicking Tools & Services link.

Please be informed that with 4 credits you can print 1 page. So in the example, user has 40 credits. This user can print 10 pages.

To print pdf documents, please choose "print as image" option before printing. You can access this option from Advanced button.

Print and Photocopy accounts are the same?

The answer is **NO**. You cannot use the photocopy machines with your print account.

If you want to use the self service photocopy machines; you should transfer some money in your smart ID card by using the post machines; then you should go to XEROX COPY CENTER located on the basement floor in the library to convert your money to photocopy credit.
